

INVITATION

March 27 JW Marriott Hotel in Shenzhen Bao'an

Dear Guest,

On behalf of the CFMS | MemoryS Organizing Committee, we cordially invite you to the 2026 Global Memory Industry Event!

As a global memory benchmark, CFMS | MemoryS gathers industry leaders, tech pioneers and users, offering a core platform for trend talks, tech exchanges and business links.

Facing cost pressures and supply-demand imbalances: How for memory firms to break into high-value segments? How to build an efficient ecosystem via industry-wide collaboration? How for terminal makers to unlock memory value through tech integration?

Themed "Navigate the Cycle, Unlock Value", CFMS | MemoryS 2026 kicks off March 27 at JW Marriott Hotel Qianhai, Bao'an, Shenzhen. Join peers to solve puzzles, explore paths, navigate the cycle and witness value release!

We look forward to your presence!

CFMS | MemoryS Organizing Committee
